Frequently Asked Questions

1

How does PayPal work?

- The buyer links a card or bank account to a PayPal account
- The buyer purchases from a merchant who accepts PayPal
- PayPal debits the buyer's PayPal account and credits the merchant's PayPal account while protecting the buyer's financial information
- The merchant can then transfer funds from the PayPal account to a registered CAB bank account

2

Is PayPal right for your business?

- You sell or intend to sell your goods and services globally
- You have a website and want to receive payments online
- You have customers who want to pay with PayPal
- You want to accept online card payments
- You currently accept online card payments and want to reduce your risk
- You want to sell your goods online

If any of these circumstances apply to you, then PayPal is the right payment solution for your business.

Note: PayPal does not currently support transactions in Jordanian Dinar. USD is currently the supported currency in Jordan.
